

Turn it loud

I walk down the street in the rain

I`m searching for the girl who`s sweet

Ten to eight,ten minutes too late

But she is all i need

Should i stay or should i go

I decide to leave that place

A cab`s comming i say hello

I still can catch the relay

Turn it loud, turn it loud

I wanne hear them scream and shout, turn it loud

Oh you know i`m not down and out turn it loud

The drivers face that looks so scared

Not knowing what to do

On the sidewalks i see the pairs

Pubs and bars which are new

At the corner where i step out

I take a sweet girls hand

We`re reaching the club were feeling right

There plays my favorite band

Turn it loud, turn it loud

I wanne hear them scream and shout, turn it loud

It takes a long time before i`m out, turn it loud
